## Professional Profile:

Nathan directs and produces commercials, brand films, VO's, music videos and short films. His creative output and reputation for forward-thinking strategic-based video content brought him to the attention of one of the fastest growing brands in the UK, Omaze, where his experience and expertise in both marketing content and film production are utilised in all social media video assets, radio ads and television commercials nation-wide. A detailed eye and obsession with continually improving efficiency and production value as well as talent performance has seen an increase in engagement across the board, resulting in a healthy increase in sales since joining the brand. Acknowledging his beginnings as an actor, Nathan's focus as a director is performance-led, with an over-arching philosophy born from the mantra *'specificity is king'*.
